Karthik Acharya

Full Stack Web Developer

Professional Summary

Driven Full Stack Web Developer with expertise in the MERN stack, adept at crafting efficient server-side APIs and seamless frontend integration using Node.js, Express.js, and React.js. Proficient in leveraging Generative AI and quick to learn new technologies. Committed to enhancing development workflows and ensuring software excellence.

Experience

Tata Consultancy Services | System Administrator August 2021 - February 2023

- Managed the monitoring and ticketing of application servers and ensured their optimal performance and availability.
- Performed L1 Windows and Linux patching using SCCM Tool, demonstrating a solid understanding of system updates and maintenance.
- Engaged in server troubleshooting and detailed investigations during service failures, showcasing problem-solving skills and technical expertise.

Projects

SUGAR Cosmetics Clone [Live Demo Link](#) [Github Repo Link](#)

JavaScript, React, Redux, Git, Node.js

Express.js, MongoDB, RESTful APIs

- Built a full-stack e-commerce website using the MERN stack, providing seamless user experience.
- Implemented secure authentication and payment gateway integration with JWT and Razorpay.
- Designed interactive UI with Chakra UI and implemented proper routing and sorting options.

Tata CLiQ Clone [Live Demo Link](#) [Github Repo Link](#)

JavaScript, React, Responsive Web Design, Git

Node.js, Express.js, MongoDB, Redux

- Developed a responsive full-stack e-commerce platform with MERN stack.
- Created secure authentication system with JWT, and cart management features.
- Integrated modern UI design using Chakra UI and ensured smooth navigation with well-implemented routing.
